Dear Upper Primary parents;

It has been noticed lately that students arrive to school having conditions such as high fever, sore throat and runny nose. Such an act is totally unacceptable in terms of the current pandemic. As parents, you are kindly obliged to monitor the safety of your children as well as other children at school.

Therefore, we are herein reminding you of the following rules being announced last school year in terms of students' existence at school premises during the current pandemic of COVID-19:

General annotations:

- * **In case any student is sick or even not feeling well, s/he should stay at home until complete recovery from any symptoms. Students are NOT allowed, under any circumstances, to come to school while being sick. Parents are fully responsible to follow such procedures and to bear all related consequences in case of failing to adhere to them.**
- * Kindly note that students of Primary 5&6 **are not required to sit for monthly exams** that require their existence; rather teachers frequently give the students "Marked Sheets" many times throughout the month to gather marks for their yearly work. Another issue to take into consideration; "Zoom" live streaming is to take place *shortly*, case of which should help students to follow up with their lessons in case they are sick and absent.
- * Every student should come to school wearing his/her own **face mask**; which should be **kept on throughout the school day, even during the break time.** Students can only **take off** their masks during the **PE sessions**, and to lower it **below their nose** while climbing the stairs and put it back up **right** after they **reach their floor.**

- * Every student should have **extra** face masks (not less than THREE) with him/her.
- * Every student should come to school with his/her own alcohol hand-sanitizer (in the form of hand-gel not atomizer), tissues, and wipes.
- * Students are **forbidden** to share their supplies, bottles, hand-gel ... etc with each other.
- * Students' body temperature shall be checked on a daily basis.
- * In case a COVID-19 case has been recognised within the family or within the parameter of acquaintances of the student, **parents are demanded of the following:**
 - **Report** to school that student has been in contact with such a case.
 - **Keep** student at home for a period of fourteen (14) days counted from the last contact with the case.
- * Parents are required to **advise** and **encourage** their children to **comply** with all the safety procedures including social distancing, avoiding physical contact, self hygiene and avoiding sharing any personal items with others, along with the other procedures.

We highly appreciate your cooperation and support as we strive to do what is best for ALL our students and employees during the current exceptional circumstances.
